# Organic

## ● Organic Family

Nielsen-Massey Vanillas is pleased to offer their signature Madagascar Bourbon Pure Vanilla Extract in an Organic form. This vanilla is made from the highest quality organically grown vanilla beans and certified organic alcohol. The beans used are the fruit of the *Vanilla Planifolia Andrews* orchid. As in the production of Nielsen-Massey's traditional Madagascar Bourbon Pure Vanilla, the organic product is made using their unique cold extraction process.

### Organic Madagascar Bourbon Pure Vanilla Extract

Use this product when the unique properties of an organic ingredient are desired. Organic Vanilla is ideal in any application where vanilla extract would be used, whether it is bread, cookies, or cr me br lee – it provides the same high quality vanilla taste, with the benefit of Organic certification. Available in 2, 4, and 8-ounce bottles for retail sale, and quarts, gallons, and drums for foodservice and industrial use.

### Organic Madagascar Bourbon Vanilla Beans

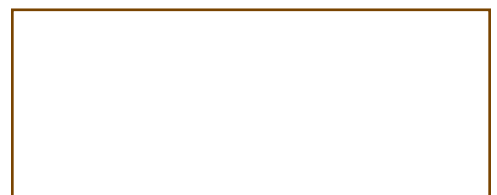

Organic Madagascar Bourbon Vanilla Beans are available for those who seek only the finest in organically certified ingredients. These certified organic vanilla beans offer the same rich and creamy flavor of conventionally-grown beans, and may be used for the same cooking and baking applications. Nielsen-Massey carefully hand-selects these fresh beans for their superior quality, taste, aroma, and appearance. Organic Madagascar Bourbon Vanilla Beans are available in 2-bean vials and bulk by the pound.
